**LIFESPAN**
Drexel Metals Roofing Systems last 40-60 years or more, ensuring you’ll never have to replace your roof. Drexel Metals is the ONLY metal roofing company that provides a warranty that lasts 40-60 years or more.

**SHINGLES, A METAL ROOF IS THE BEST INVESTMENT IN THE LONG RUN.**
While the initial costs of a metal roof may be higher than asphalt shingles, the long-term savings and increased home value outpace the higher initial costs. A metal roof can last 2-3 times longer than asphalt shingles, making it a better investment in the long run.

**SMARTER SPENDING IS JUST PART OF THE GREEN STORY.**
Drexel Metals Roofs are more than just smart, financially superior investments. They are visually stunning. You’ll be the envy of the neighborhood.

**THE GREEN CHOICE**
Drexel Metals Roofs reflect rather than absorb sunlight, keeping your home cooler in summer with reduced energy costs and warmer in winter with increased home comfort.

**100% RECYCLABLE**
Drexel Metals Roofing Systems are made from 30-60% recycled materials and are 100% recyclable. This reduces waste and promotes sustainability.

**DURABILITY**
Drexel Metals Roofing Systems are designed to withstand decades of extreme weather like gale and hurricane force winds, heavy snow, hailstorms, and even wildfires. It will not deteriorate and is virtually maintenance free.

**BEAUTIFUL + STRONG**
The roof over your head is a major line of defense against the power of mother nature. The roof is a major focal point of your home’s design and architecture. Whether over your head, over a rooftop, or in your mind, where your favorite memories are made.

**THE ROOF OVER YOUR HEAD**
Your home is your sanctuary. Where your favorite memories are made. It provides your family and is a reflection of who you are.

**Create Roof Envy**
Drexel Metals Roofing Systems are precision-engineered and designed to attract potential buyers should you decide to sell.

**Warranty Protection**
Drexel Metals is the ONLY metal roofing company that provides a warranty that covers labor, adhesion, chalk and fade protection and is transferable from owner to owner for the period of the warranty. For complete warranty information, including limitations, ask your contractor for a copy of the Drexel Metals Roofing Systems warranty.

**COLORS SHOWN REPRESENT THE ACTUAL COLOR AS CLOSELY AS POSSIBLE. TO ENSURE EXACT COLOR FOR YOUR PROJECTS, A METAL COLOR CHIP IS AVAILABLE.**

ARE THEY NOISY?
This is the #1 question we get asked. The answer is no. Our roofs are typically installed over your attic space with insulation plus your roof deck and our underlayment. This makes our metal roofs no more noisy than other roofing materials on the market.

LIGHT AS A FEATHER
Well, maybe not a feather, but a metal roof is on average 50% lighter than an asphalt shingle roof and 75% lighter than concrete tile, fiber cement shakes and slate.

GOT SNOW?
Metal roofing is a popular choice for homes in areas with heavy snowfall. A metal roof sheds snow quickly, thereby protecting the integrity of the roof and eliminating ice damming at the eaves that can cause water back up and eventually leak into your home.

CUSTOM BEAUTY + APPEAL
Luxurious colors, dramatic lines and graceful curves – from sleek and modern to charming and traditional. We offer a broad scope of profiles, styles and colors to infuse your home with your personal taste.

Choose from pre-painted Galvalume®, pre-painted aluminum, Drexlume™, Fluropon™ and copper. All are constructed with products proudly made in the USA and installed by local installers.

FIRE + LIGHTNING SAFETY RATINGS
Metal roofs are safer than most roofing material in the event of a lightning strike. They are not combustible and are less likely to start a fire. Also, Drexel Metals Roofing Systems carry a UL class “A” fire rating for roof coverings, which are evaluated for the ability to resist the spread of fire into the attic, resist flame spreading and resist generating burning embers.
