Buy America Act and Buy American Act

To Whom It May Concern,

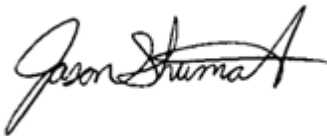

Drexel Metals, a Carlisle company, has been manufacturing architectural metal cladding systems in multiple gauges of steel and aluminum since 1985. Drexel Metals supplies contractors and distributors in the construction industry with coils and flat sheets, metal wall panel systems, standing seam roof systems, soffit, fascia and coping, related accessory products as well as technical support.

The Drexel Metals program includes:

- Primarily utilizing domestic steel and aluminum mills for its metal, and using alternate sources when needed to meet customer demands. Customers must advise at time of order if a specific project must meet Buy America/Buy American requirements to ensure their needs are met
- Supply chain efficiency
 - Steel manufactured in: Wheeling, WV; Follansbee, WV; Granite City, IL; Fairfield AL; Indiana Harbor, IN; Butler, IN
 - Aluminum manufactured in: Lancaster, PA; Uhrichville, OH; Mount Holly, SC
 - Paint lines in: Portage IN; Jeffersonville, IN; Weirton WV; Jackson TN
 - Paint supplied from Pittsburgh, PA
- Consolidated freight resulting in savings on diesel fuel
- Fabrication facilities strategically located throughout the United States

We appreciate your business and thank you for your continued support.

Sincerely,

Jason Shumate
Senior Manager
Carlisle Architectural Metals
