

Drexel Metals Joins MasterSpec®
May 7th, 2024

To: Drexel Metals' Customers

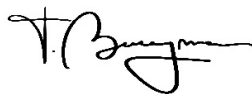

We are thrilled to announce that Drexel Metals has been added to Deltek Specpoint – home of MasterSpec – the trusted resource for architectural specifications. This partnership marks a significant milestone in our commitment to providing architects, engineers, and specifiers with the highest-quality metal roofing, edge metal and wall panel solutions.

With Drexel Metals now included in the MasterSpec platform, professionals can easily access detailed specifications, technical data and performance information for our extensive range of products. Included [here](#), and below, is the full list of Drexel Metals' products currently available on MasterSpec.

By integrating Drexel Metals into MasterSpec, architects and specifiers gain streamlined access to accurate and up-to-date information. It is now easier than ever to make informed decisions and seamlessly incorporate our products into your designs. Whether it's for commercial, residential, or institutional projects, our commitment to quality, durability and sustainability shines through in every specification.

We invite you to explore Drexel Metals on MasterSpec and discover why our solutions are trusted across the industry. Together, let's enhance your next project with the unmatched performance and reliability of Drexel Metals.

Sincerely,

Todd Bergman
Carlisle Architectural Metals Product Manager
